Segway Polo Equipment

- **Segway:** "stock" configuration i, e, or x-series (max 2 x-series per team)
 - Protective gear may be added, but may not exceed the stock width of any machine.
 - Mallet must be held in right hand at all times.
- **Speed:** 12.5 mph maximum (stock maximum speed)
- **Helmet:** bicycle, skate, hockey, etc. with chin strap.
- **Mallet:** 38-42 inch polo-type mallet: gladiator-sports.com
 - Mallet must be padded with a minimum of .25in thick foam. Tape may be used to secure foam in place.
- **Ball:** 4inch - 4.25inch Open-Cell Foam with exterior coating
- **Cone markers:** 10 short cones to indicate field boundaries and 4 soccer-type corner flags (5ft tall) for goals

International Segway Polo Association

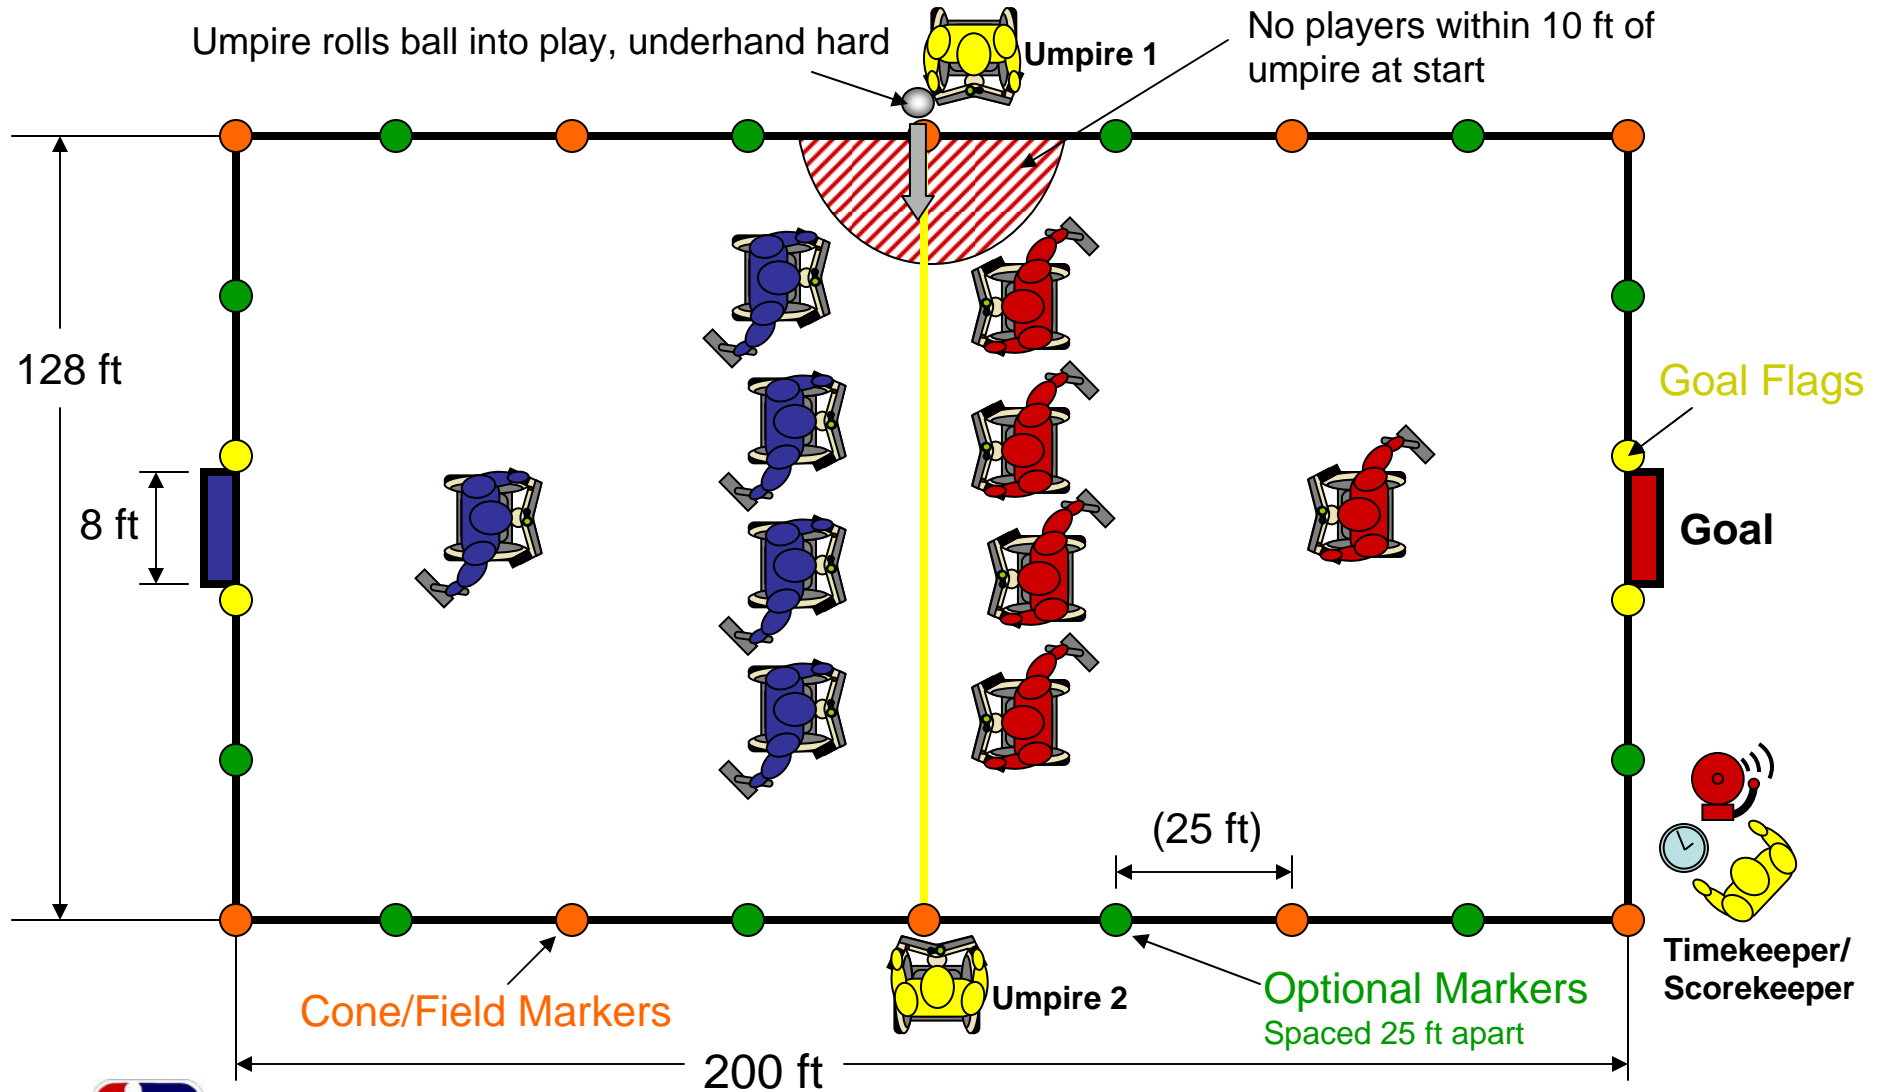

Goal

1. A goal is scored if the ball passes beyond the plane of the goal posts.
2. A goal is not scored if the ball passes above the height of the goal posts (5 feet).

Field Layout- Starting Position

International Segway Polo Association

Match Duration- 4 Chukkers

Equipment Failure

1. Unless an injury occurs, time is not stopped for any equipment failure or dropped mallet. The player is responsible for safely restarting the Segway in-place or moving off of the field to replace equipment. Other players must avoid collisions with failed equipment.
2. Intentional dropping or throwing of a mallet is not allowed.

Contact with Ball

Only **hit** ball with mallet, right arm up to the elbow, or Segway.

Blocking or knocking down ball is allowed with any part of the body. Blocking or knocking down ball may not result in a goal.

1. A player may not intentionally hold the ball with any body part or transport the ball on a Segway. Blocking with a hand is allowed, but the player may not grab the ball.
2. A player may hit or block the ball with the mallet regardless of the height of the ball off the ground, but may not swing dangerously or recklessly if other players are nearby. If another player is inadvertently struck by a player's mallet, a foul shall be called.

International Segway Polo Association

Hooking Mallets

1. A **defender** may hook a mallet if an **opponent** is in the act of striking at the ball, only on a down-stroke, and must release immediately after the attempted swing is completed.
2. Hooking is only allowed if a **defender** is behind or on the same side as an **opponent** (mallet may not cross over front of opponent's Segway to hook) and the mallet is below waist-level.
3. Hooking may not intentionally impede another player's forward motion.

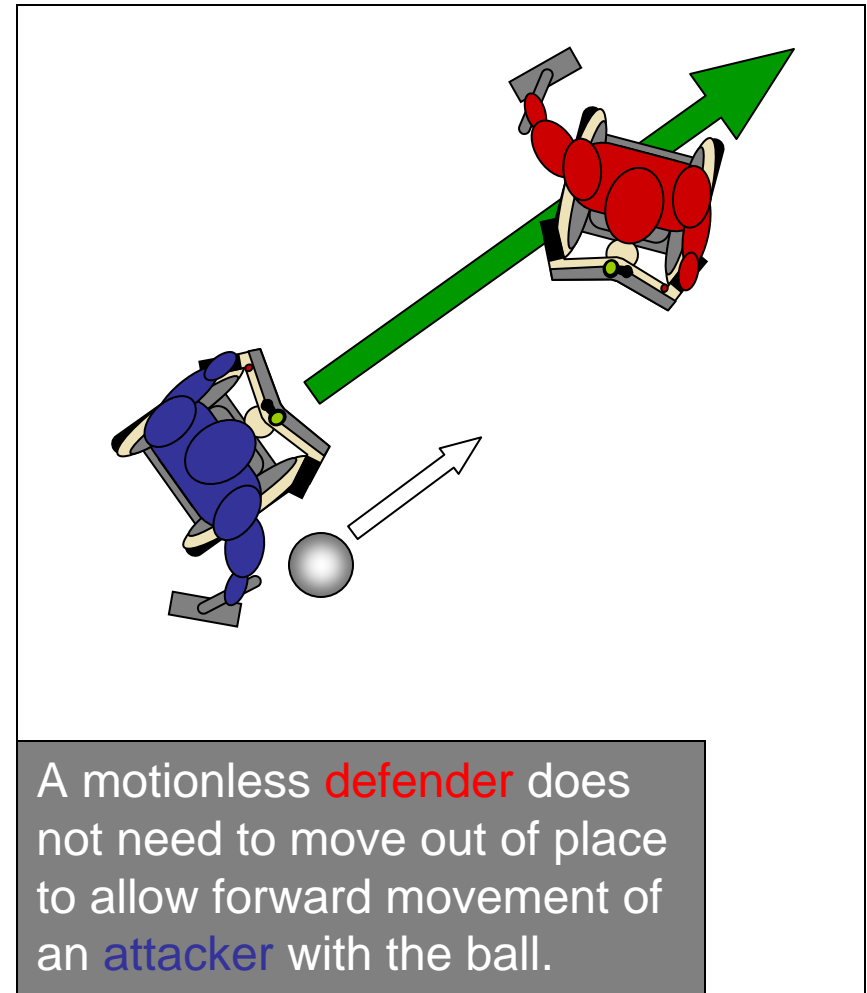

Contact Between Players

A player may not intentionally steer another player's machine. This includes grabbing a steering grip or control shaft, or pushing a player's body.

Right of Way- Player Has Possession

Right of Way- Motionless Ball

1. If two players are attempting to take control of the ball, and are equal distance from the ball, the player with the smaller angle has right of way to continue riding in the same direction.
2. Otherwise, the player who is closer to the ball has right of way.
3. Right of way does not dictate right to the ball. It only determines who has rights to travel in a certain direction. Any player may take the ball.

Right of Way- Playing Chicken

1. If two players are attempting to take control of the ball and are approaching the ball head-on, both players must approach with the ball on the right side of the Segway to avoid a collision.
2. In this special case, neither player has sole right of way and both players may continue moving in their direction of travel since this will not cause an unsafe condition.

Out of Bounds- Sidelines

If ball is hit out of sidelines, opposing team hits or dribbles ball into play at same location where it was hit out of play. **Attacker** may not score from sideline until the ball is hit into play.

Fouls, Penalties, and Other Details

Please refer to the Official Rules of Segway Polo for a comprehensive explanation of fouls, penalties, and other details. These can be found at: www.segwayhtpolo.com
